Eriez® Promotes Eric Bain Wasmund to Vice President, Global Flotation Business

Delta, BC-[Eriez®](#) President and CEO Lukas Guenthardt announces the promotion of Eric Bain Wasmund, Ph.D., Professional Engineer, to Vice President, Global Flotation Business. Wasmund previously served as Eriez Global Managing Director, Flotation Business.

“Under Eric’s tenure, the company’s flotation business has grown to eight international offices with more than 100 employees,” says Guenthardt. “By working with customers on the adoption of new solutions, such as coarse particle flotation which improves the environmental footprint of mining processes, Eric is not only bringing Eriez tremendous success, but he is also helping to revolutionize the mining industry.”

Wasmund joined Eriez in 2012. Prior to that he held senior roles at Outotec and Inco Limited in sales, marketing, management, capital projects and process engineering.

Wasmund earned a bachelor’s degree in chemical engineering from Queen’s University at Kingston and a doctorate in process metallurgy from McMaster University. He is a licensed Professional Engineer in Ontario and British Columbia.

About Eriez Flotation

[Eriez Flotation](#) is a world leader in advanced flotation technology and is a wholly owned subsidiary of Eriez Manufacturing Co. Eriez Flotation provides advanced testing and engineering services, sparging and column flotation equipment, and game-changing innovations in process technology such as [HydroFloat®](#) and [StackCell®](#) for the mining and mineral processing industries. Eriez Flotation has eight offices throughout the world including Vancouver, Erie, Melbourne, Johannesburg, Tianjin, Belo Horizonte, Lima and Santiago. For more information, visit www.eriezflotation.com or call (604) 952-2300.
